- Upon completion of the curriculum at BSC, the student is required to make a separate application to ChSCC and then nuclear medicine technology program. A student that plans to apply to ChSCC as part of this articulation agreement must contact the nuclear medicine program to request additional information early enough to submit application by the April 1st deadline.
- Bluefield State College students applying to the ChSCC NM Technology program will take 39 hours of NMT courses and all other courses/credit will be from BSC including 37 hours of basic/core skills, 7 hours required courses, 6 hours of IMAG, and 31 hours for AS RADT = 81 hours BSC + 39 hours ChSCC NM classes = 120 hours for degree.
- Students from Bluefield State College will be eligible for the eRate tuition through Chattanooga State Community College when they are accepted as students in the Nuclear Medicine Program.
- The ChSCC nuclear medicine technology program will guarantee BSC three available student openings for qualified applicants that meet all admission and interview requirements every year.
